MOH ASRAFUL HASAN ASIF

FULL-STACK DEVELOPER | PROGRAMMING INSTRUCTOR

Dhaka, Bangladesh | asrafulmdasif@gmail.com | +880 1853 376599
LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Computer Science graduate and full-stack developer experienced in building responsive web applications, REST APIs, database-backed workflows, authentication, and technical integrations. Skilled in JavaScript/TypeScript, React, Next.js, NestJS, PostgreSQL, MongoDB, and Supabase, with project work spanning AI-assisted finance, rental management, link shortening, and e-commerce. Coding instructor with strengths in troubleshooting and explaining technical concepts.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C++
Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3
Backend: Node.js, Express.js, NestJS, REST APIs, JWT authentication
Data & ORM: PostgreSQL, MongoDB, Supabase, Prisma, TypeORM
Tools & Integration: Git, GitHub, Docker, Groq AI, Chart.js, API integration, debugging

CORE SKILLS

Problem Solving & Troubleshooting | Technical Communication | Remote Collaboration | Teaching & Mentoring

PROFESSIONAL EXPERIENCE

Frontend Developer | Codinzy | *Aug 2025 - Present*

- Develop responsive web applications using React.js, Next.js, TypeScript, and Tailwind CSS.
- Build reusable UI components and integrate frontend applications with REST APIs.
- Collaborate with UI/UX designers, debug application issues, and improve frontend quality and performance.
- Contribute to coding curriculum and educational web development projects.

Coding Instructor | Codingal | *May 2024 - Sep 2025*

- Taught JavaScript, Python, web development, game development, and programming fundamentals to students aged 8-18.
- Designed practical, project-based lessons and helped students troubleshoot code and debug projects.
- Explained technical concepts clearly to learners with different skill levels and provided individualized guidance.

FEATURED PROJECT

Ledgerly | AI-Powered Personal Finance Tracker

Next.js, TypeScript, NestJS, Supabase PostgreSQL/Auth, Groq AI, Chart.js

- Built an expense and income tracker with transaction categories, multi-currency records, cash-flow visualizations, and friend-to-friend loan and repayment tracking.
- Integrated Groq-powered natural-language expense parsing with an editable review step before saving transactions.

ADDITIONAL SELECTED PROJECTS

Bari Bhara (BariVara) | Rental Property Management Platform

Next.js, NestJS, TypeScript, Prisma, PostgreSQL, JWT

- Developing a Bangla-first property management app for properties, units, tenant records, rental agreements, monthly rent bills, payments, expenses, reminders, and reporting.
- Designed a NestJS REST API with Prisma/PostgreSQL, JWT authentication, and property-scoped access for secure rental workflows.

Link Shortener | URL Shortening & Analytics

Next.js, TypeScript, NestJS, TypeORM, PostgreSQL (Neon), JWT

- Implemented account authentication, auto-generated and custom short slugs, link enable/disable controls, and HTTP redirects.
- Built a dashboard for link management and click analytics; deployed the Next.js frontend on Vercel and NestJS API on Render with Neon PostgreSQL.

Culinary Odyssey | Catering Management System

Next.js, TypeScript, NestJS, PostgreSQL, TypeORM

- Built responsive menu browsing, cart, and order workflows for a full-stack catering management platform.
- Developed NestJS REST APIs and TypeORM-backed PostgreSQL data models for catering operations and customer orders.

Doctein | Healthcare Practice Management Platform

Next.js, TypeScript, Express.js, MongoDB, Multer, Zustand

- Developed a healthcare platform for digital prescriptions, appointment scheduling, and patient record workflows.
- Built Next.js interfaces with Express APIs, MongoDB persistence, Multer file uploads, and Zustand state management.

Nexus | Event Management & Ticketing Platform

Next.js, TypeScript, Convex, Clerk, Zod, Google Generative AI

- Built event discovery, organizer, ticketing, and attendee-management workflows in a responsive web application.
- Used Convex for data workflows, Clerk authentication, Zod validation, and Google Generative AI integration.

EDUCATION

B.Sc. in Computer Science and Engineering | *May 2022 - May 2026*
American International University - Bangladesh (AIUB)

Higher Secondary Certificate (HSC) | *2018 - 2020*
Feni National College
